

Introduction to Project MUSE®

What is Project MUSE?

Project MUSE (<http://muse.jhu.edu>) is an online collection of several hundred titles in the arts, humanities and social sciences from 60 university and society presses. MUSE journals cover many fields of study including literature, history, politics and policy studies, economics, education, film, religion and women's studies. The back of this page shows an extended list of the fields of study covered by journals in MUSE.

What you'll find in MUSE:

- 100% Full-text articles from scholarly journals
- Entire contents of journals
- Reviews (books, performance, art, music, etc.)
- Fiction and poetry
- Illustrations and photographs within the full text
- Articles in both HTML and PDF formats
- Editorial and submission information for the journals

Features and Functionality

- Browse full journal content:
 - > Browse by title or subject.
 - > View complete Tables of Contents issue by issue.
 - > Article entries include Library of Congress subject headings and links to full text.
- Link to MUSE from other electronic resources:
 - > Search MUSE articles using Google and Google Scholar.
 - > MUSE links to familiar indexing/abstracting or gateway services.
 - > MUSE is a member of CrossRef – a multi-publisher citation linking system.
 - > MUSE links with JSTOR to allow searching the full digital run of several core journals from one interface.
- Manage your search results
 - > E-mail full-text article links to yourself and others.
 - > Export citations directly to EndNote or RefWorks.
 - > Download or print results in text-only format.
- Researchers can access MUSE from any computer in the campus-wide network or off campus via the library's remote access server.

New Issue Notification:

There are two methods for gaining instant notification when new issues of your favorite journals are released or when new journal titles in all subjects are added to MUSE.

RSS FEEDS

Subscribe to RSS feeds to receive instant notification when new issues are released, or when new journal titles are added to MUSE. Visit <http://feeds.muse.jhu.edu> to subscribe.

E-MAIL ALERTS

Receive an e-mail when new issues of your favorite journals are released or when new journal titles are added to MUSE. Sign up for e-mail "Journal Alerts" at http://tools.muse.jhu.edu/cgi-bin/journal_alerts.cgi

Both the RSS feeds and e-mail Alerts include links to Tables of Contents of journal issues and provide easy access to full-text journal content. Additional feeds and alerts may be added, so users are encouraged to check the sites periodically.

** MUSE posts journal issues online often before libraries receive them in print.*
