THE SOCIETY FOR THE HISTORY OF TECHNOLOGY

The Society for the History of Technology was formed in 1958 to encourage the study of the development of technology and its relation with society and culture.

An interdisciplinary organization, the Society is concerned not only with the history of technological devices and processes but also with the relations of technology to science, politics, social change, the arts and humanities, and economics. The Society is incorporated in the State of Ohio as a nonprofit educational organization. Its membership is international.

Technology and Culture, the official publication of the Society, is included with membership in the Society. Membership is open to individuals, organizations, corporations, and institutions interested in the purposes and activities of the Society (see p. i for membership/subscription rates).

The Society also publishes a series of monographs and holds annual meetings, sometimes with related organizations.

Checks accompanying applications for membership should be sent to The University of Chicago Press, Journals Division, P.O. Box 37005, Chicago, Illinois 60637.

Officers

President: BROOKE HINDLE

Secretary: CARROLL W. PURSELL, JR.
