LIST OF ILLUSTRATIONS

Boxes

1-1	Ignoring Behavioral Responses to Tax and Expenditure Policies, Stephen D. Younger	32
1-2	Marginal Contribution, Ali Enami	38
1-3	Fiscal Impoverishment and Gains Effectiveness Indicators, Ali Enami, Sean Higgins, and Stephen D. Younger	44
6-1	Top Coding across Multiple Years or Countries, Gary Burtless	226
6-2	Top Incomes and Inequality Measurement, Paolo Verme	229
6-3	Inclusion of the Assumptions of Evasion in the Tax on the Transfer of Industrialized Goods and Services (ITBIS) of the Dominican Republic, Jaime Aristy-Escuder, Maynor Cabrera, Blanca Moreno-Dodson, and Miguel E. Sanchez-Martin	252
6-4	Example of One Way to Generate Indirect Taxes in the Absence of Consumption Data, Marisa Bucheli	254
6-5	On Using Consumption or Income, Gary Burtless	265
6-6	When the Household Survey Year Is Dated: The <i>CEQ Assessment</i> for the Dominican Republic, Jaime Aristy-Escuder, Blanca Moreno-Dodson, Miguel E. Sanchez-Martin, and Maynor Cabrera	270
8-1	Education Enrollment Indicators, Adam Ratzlaff	398
14-1	Electricity Subsidy Estimation	628
14-2	Including VAT Evasion Assumptions in the Dominican Republic	651

Figures

I. 1	CEQ Institute. Countries with <i>CEQ Assessments</i>	lxiii
1-1	Income Concepts under the Two Scenarios in <i>CEQ Assessments</i> : Pensions as Deferred Income (PDI) and Pensions as Government Transfer (PGT)	17
B1-1	Variation for a Single Tax on Good i	33
1-2	Fiscal Impoverishment and Fiscal Gains to the Poor	37
1-3	Progressivity of Transfers: A Diagrammatic Representation	41
2-1	Lorenz Curve of Pretax Income and Post-Tax Income and Concentration Curve of Tax	60

2-2	Average Tax Rate by Pretax Income: A Progressive, Neutral, and Regressive Tax	61
2-3	A Diagrammatic Representation of Progressivity of Taxes	64
2-4	A Progressive Transfer: Lorenz Curve of Pre-Transfer Income, Concentration Curve of an Equalizing Transfer, and Lorenz Curve of Post-Transfer Income	70
2-5	A Pro-Poor Transfer: Lorenz Curve of Pre-Transfer Income, Concentration Curve of an Equalizing Transfer, and Lorenz Curve of Post-Transfer Income	71
2-6	A Diagrammatic Representation of Progressivity of Transfers	74
4-1	Stylistic Illustration of Fiscal Impoverishment and Gains to the Poor	180
4-2	Conventional Tools to Assess the Tax and Transfer System in Brazil	194
	Panel A: First Order Stochastic Dominance (cumulative distribution functions)	194
	Panel B: Global Progressivity (Lorenz and concentration curves)	194
4-3	FI, FGP, and Poverty Gaps in Brazil for Various Poverty Lines	196
	Panel A: Total FI and FGP (billions of dollars per year)	196
	Panel B: Total Poverty Gaps (billions of dollars per year)	196
6-1	Definitions of Income Concepts: A Stylized Presentation	234
6-2	Income Concepts under the Two Scenarios in <i>CEQ Assessments</i> : Pensions as Deferred Income (PDI) and Pensions as Government Transfer (PGT)	244
7-1	Paasche Variation in Consumption Expenditure	330
7-2	Consumer Surplus Variation under Homothetic Preferences	332
7-3	The SUBSIM “Price Shocks” Submenu in the “I/O Price Change Model”	342
7-4	The SUBSIM “I/O Price Change Model Menu”	344
8-1	Concentration Curves for Progressive and Regressive Transfers and Taxes	367
	Panel A: Transfers	367
	Panel B: Taxes	367
8-2	Additional Efficiency Indicators	385
8-3	Stylistic Illustration of Income Concept and Fiscal Intervention Options	417
10-1	Size and Composition of Government Revenues (as a % of GDP; circa 2010)	481
10-2	Size and Composition of Primary and Social Spending plus Contributory Pensions (as a % of GDP; circa 2010)	482
	Panel A: Primary and Social Spending plus Contributory Pensions as a % of GDP	482
	Panel B: Composition of Social Spending plus Contributory Pensions as a % of GDP	483
10-3	Basic Income Concepts	484
10-4	Fiscal Policy and Inequality (circa 2010): Gini Coefficient for Market, Disposable, Consumable, and Final Income	486
	Panel A: Contributory Pensions as Deferred Income	486
	Panel B: Contributory Pensions as Transfers	486
10-5	Marginal Contribution of Taxes and Transfers (circa 2010)	489
	Panel A: Marginal Contributions of Net Direct Taxes (contributory pensions as deferred income)	489

	Panel B: Marginal Contributions of Net Indirect Taxes (contributory pensions as deferred income)	489
	Panel C: Marginal Contributions of In-Kind Transfers in Education and Health (contributory pensions as deferred income)	490
10-6	Initial Inequality and Social Spending, circa 2010 (social spending/GDP and Market Income plus Pensions inequality [contributory pensions as deferred income])	492
10-7	Initial Inequality and Fiscal Redistribution, circa 2010 (redistributive effect and Market Income plus Pensions inequality [contributory pensions as deferred income])	493
10-8	Market Income plus Contributory Pensions Gini versus Final Income Gini, circa 2010	494
	Panel A: Final Income Inequality and Market Income plus Contributory Pensions Inequality (contributory pensions as deferred income)	494
	Panel B: Final Income Inequality and Market Income Inequality (contributory pensions as transfers)	494
10-9	Redistributive Effect: Comparing Developing and Advanced Countries (change in Gini points; circa 2010)	496
	Panel A: Individual Countries	496
	Panel B: Low- and Middle-Income Countries, the United States, and Average for EU-28	496
10-10	Fiscal Policy and Poverty Reduction (circa 2010): Change in Headcount Ratio from Market to Disposable and Consumable Income (in %)	499
	Panel A: Contributory Pensions as Deferred Income (ranked by poverty reduction in %; poverty line \$1.25 2005 PPP/day)	499
	Panel B: Contributory Pensions as Transfers (ranked by poverty reduction in %; poverty line \$2.50 2005 PPP/day)	500
10-11	Net Payers to the Fiscal System by Income Groups (contributory pensions as deferred income)	501
11-1	Evolution of Inequality through Different Income Concepts	531
	Panel A: Gini Coefficient	531
	Panel B: Change in Gini (%)	531
11-2	Evolution of Poverty through Different Income Concepts	532
	Panel A: Headcount Index	532
	Panel B: Change in Headcount Index (%)	532
11-3	Concentration Coefficient by Spending Category with Respect to Market Income, Argentina 2012	540
	Panel A: Benchmark Case	540
	Panel B: Sensitivity Analysis	540
11-4	Lorenz and Concentration Curves for Aggregate Public Expenditures, Argentina 2012	542
	Panel A: Benchmark Case	542
	Panel B: Sensitivity Analysis	542

11-5	Redistributional Effect of Taxes and Public Expenditures, Argentina 2012	543
	Panel A: Benchmark Case	543
	Panel B: Sensitivity Analysis	543
12-1	Brazil's Great Divide: Distribution of the Population by Ethnic Groups, Market Income, Disposable Income, and Consumable Income	559
12-2	Distribution of Income between Whites and Non-Whites	561
13-1	Definition of Income Concepts in Chile's Incidence Analysis	576
13-2	Effects of Fiscal Interventions on Income Inequality (Gini coefficients)	580
13-3	Concentration of Total Direct Taxes Paid on Personal Income and Total Direct Transfers Received, by Income Group	581
13-4	Marginal Contributions of Fiscal Interventions to Income Inequality (Gini points)	583
	Panel A: When Disposable Income Is the End Income Concept	583
	Panel B: When Consumable Income Is the End Income Concept	583
13-5	Concentration and Lorenz Curves	584
13-6	Marginal Contributions of In-Kind Transfers to Income Inequality (Gini points)	584
13-7	Effects of Fiscal Interventions on Poverty	586
	Panel A: Percentages of Population in Poverty, by Income Concept	586
	Panel B: Changes in Poverty Indices from Market Income plus Pensions to Consumable Income (%)	586
13-8	Marginal Contributions of Fiscal Interventions to Poverty (percentage points)	587
13-9	Headcounts and Amounts of Fiscal Impoverishment and Fiscal Gains to the Poor (percentages of population and US\$ millions adjusted by PPP)	589
13-10	Distribution of Total Social Spending on Education and Health and Concentration and Incidence of Social Spending on Tertiary Education (percentages by deciles of market income plus pensions)	591
	Panel A: Distribution of Total Social Spending on Education and Health (%)	591
	Panel B: Concentration and Incidence of Social Spending on Tertiary Education (%)	591
13-11	Concentration Coefficients of Social Spending and Public Spending on Subsidies	592
13-12	Redistributive Effects and Social Spending on Direct Transfers in Select Latin American Countries	593
13-13	Inequality Dynamics in Chile and Select Countries in Eastern Europe	594
13-14	Poverty-Reducing Effects in Select Latin American Countries	595
14-1	Income Concepts Used in Fiscal Incidence Analysis	608
14-2	Progressivity of Direct and Indirect Taxes: Concentration and Lorenz Curves for Market Income	615
14-3	Progressivity of Direct Taxes: Concentration and Lorenz Curves for Market Income	616
14-4	Direct Taxes, Concentration Shares per Socioeconomic Group	617
14-5	Direct Taxes, Concentration Shares per Decile: Country Comparison	618
14-6	Progressivity of Indirect Taxes: Concentration and Lorenz Curves for Market Income	620

14-7	Indirect Taxes, Concentration Shares per Socioeconomic Group	621
14-8	Indirect Taxes, Concentration Shares per Decile	622
14-9	Distribution of Direct Transfer Spending by Level: Concentration Curves (left) and Distribution by Socioeconomic Group (right)	624
14-10	Concentration Shares of Direct Transfers, by Deciles: Country Comparison	626
14-11	Distribution of Indirect Subsidies Spending: Concentration Curves (left) and Incidence on Market Income by Level (right)	627
14-12	Concentration Shares (left) and Incidence of Indirect Subsidies (right) in Comparable Countries	629
14-13	Progressivity of Health and Education Spending: Concentration and Lorenz Curves for Market Income	630
14-14	Distribution of Education Spending by Level: Concentration Curves (left) and Distribution by Socioeconomic Group (right)	632
14-15	Enrollment in Public Education by Level for School-Age Children	633
14-16	Incidence of Education Expenditures by Level for School-Age Children: Primary Level (left) and Preschool, Secondary, and University Levels (right)	634
14-17	Incidence of Education Expenditure per Decile, Country Comparison	634
14-18	Distribution of Health Spending by Level: Concentration Curves (left) and Distribution by Socioeconomic Group (right)	635
14-19	Individuals Who Live in Beneficiary Households by Health Program and Socioeconomic Ranking	636
14-20	Incidence of Health Expenditures by Coverage Regime	637
14-21	Concentration Coefficients with Respect to Market Income, by Fiscal Instrument	637
14-22	Change in Inequality: Disposable and Final Income versus Market Income (in Gini points)	641
14-23	Percentage of Population by Socioeconomic Class in the Dominican Republic	643
14-24	Postfiscal (left) and Final Income (right) as a Share of Market Income	644
14-25	Fiscal Incidence Curves (left) and Fiscal Mobility Profiles (right), by Deciles	646
14-26	Percentage of Individuals Benefiting from Health (left) and Public Education (right) Services, by Daily Income	649
14-27	Beneficiaries of VAT Tax Expenditure for Different Product Categories	652
14-28	Effects on Inequality (left) and Poverty (right) of Alternative ITBIS Exemption Scenarios	653
14-29	Effects on Revenue Increase in Scenarios of ITBIS (as percentage of total disposable income)	653
17-1	Income Concepts According to the CEQ Methodology	716
19-1	Gini Index of Inequality in Uganda, 1992–2013	746
19-2	Composition of Total Government Revenues (as % of GDP): Bolivia, Ethiopia, Ghana, Honduras, Nicaragua, Tanzania, and Uganda (circa 2010)	756
19-3	Total Revenue (as % of GDP) versus Gross National Income per Capita (circa 2010)	757

19-4	Personal and Payroll Taxes (as % of GDP) versus Gross National Income per Capita (circa 2010)	758
19-5	Total Primary and Redistributive Spending plus Contributory Pensions (as % of GDP): Bolivia, Ethiopia, Ghana, Honduras, Nicaragua, Tanzania, and Uganda (circa 2010)	759
19-6	Redistributive Spending (as % of GDP) versus Gross National Income per Capita (circa 2010)	760
19-7	Composition of Social Spending (as % of GDP): Bolivia, Ethiopia, Ghana, Honduras, Nicaragua, Tanzania, and Uganda (circa 2010)	761
19-8	CEQ Income Concepts and Fiscal Policy Elements	762
19-9	Redistributive Effects: Bolivia, Ethiopia, Ghana, Honduras, Nicaragua, Tanzania, and Uganda, circa 2010 (change in Gini in absolute terms)	768
19-10	Initial Inequality and Redistributive Effect (circa 2010)	769
19-11	Social Spending (as % of GDP) versus Redistributive Effect (circa 2010)	770
19-12	Percent Change, Poverty Headcount: Bolivia, Ethiopia, Ghana, Honduras, Nicaragua, Tanzania, and Uganda (circa 2010)	771

Tables

1-1	Lambert's Conundrum	8
1-2	Scenario 1 in <i>CEQ Assessments</i>	24
1-3	Scenario 2 in <i>CEQ Assessments</i>	26
1-4	Scenario 3 in <i>CEQ Assessments</i>	28
1-5	Conceptualizing Coverage Indicators	46
2-1	An Everywhere Progressive Tax and a Globally Progressive Tax	62
2-2	Conditions for Equalizing, Neutral, and Unequalizing Taxes	63
2-3	Redistributive Effect and the Progressivity and Size of Taxes	66
2-4	Conditions for the Redistributive Effect and Progressivity and Size of Taxes	68
2-5	Redistributive Effect and the Progressivity of Transfers	72
2-6	Conditions for Equalizing, Neutral, and Unequalizing Transfers	73
2-7	Lambert's Conundrum	75
2-8	Net Fiscal System: Conditions for the One Tax–One Transfer Case	79
2-9	Toy Example: Adding a Regressive Transfer to a Regressive Tax Can Exert an Equalizing Effect	81
2-10	Toy Example: Adding a Progressive Transfer to a Progressive Tax Can Exert an Unequalizing Effect	82
2-11	Marginal Contribution of a Tax	84
2-12	Marginal Contribution of a Transfer	86
2-13	Marginal Contributions: Results from <i>CEQ Assessments</i>	90
2-14	The Sign of the Derivative of a Tax's Marginal Contribution with Respect to Its Relative Size	93
2-15	The Sign of the Derivative of the Marginal Contribution of a Transfer with Respect to Its Relative Size	96
2A-1	Comparison of ZID and EID Approaches in Calculating the Shapley Value When an Equalized (Regressive) Tax Is Involved	103

2A-2	Example of EID Failing to Decompose the Change in Gini	106
2A-3	New Shapley Values (ZID) When Taxes Are Divided into Two Groups	107
2A-4	Nested Shapley Values (ZID) Using Different Methods of Weighting and Reference Points	111
2A-5	Owen Values (ZID)	114
3-1	Example of an Unequalizing Progressive Tax in the Presence of Reranking	117
3-2	Marginal Contribution of a Tax without Another Tax or Transfer in Place	128
3-3	Addition of a Neutral Tax with an Unequalizing Effect	128
3-4	Marginal Contribution of a Tax with a Transfer in Place	130
3-5	Addition of a Regressive Tax with an Equalizing Effect to a Fiscal System with a Regressive Transfer	130
3-6	Addition of a Regressive Tax with an Equalizing Effect to a Fiscal System with a Neutral Transfer	131
3-7	Addition of a Regressive Tax with an Equalizing Effect to a Fiscal System with a Progressive Transfer	132
3-8	Addition of a Neutral Tax with an Equalizing Effect to a Fiscal System with a Regressive Transfer	132
3-9	Addition of a Neutral Tax with an Equalizing Effect to a Fiscal System with a Neutral Transfer	133
3-10	Addition of a Neutral Tax with an Equalizing Effect to a Fiscal System with a Progressive Transfer	133
3-11	Addition of a Progressive Tax with an Unequalizing Effect to a Fiscal System with a Regressive Transfer	134
3-12	Marginal Contribution of a Tax with a Transfer in Place	135
3-13	Addition of a Regressive Tax with an Equalizing Effect to a Fiscal System with a Regressive Transfer	136
3-14	Addition of a Regressive Tax with an Equalizing Effect to a Fiscal System with a Neutral Transfer	136
3-15	Addition of a Regressive Tax with an Equalizing Effect to a Fiscal System with a Progressive Transfer	137
3-16	Addition of a Neutral Tax with an Equalizing Effect to a Fiscal System with a Regressive Transfer	137
3-17	Addition of a Neutral Tax with an Unequalizing Effect to a Fiscal System with a Regressive Transfer	138
3-18	Addition of a Neutral Tax with an Unequalizing Effect to a Fiscal System with a Neutral Transfer	138
3-19	Addition of a Neutral Tax with an Equalizing Effect to a Fiscal System with a Neutral Transfer	139
3-20	Addition of a Neutral Tax with an Equalizing Effect to a Fiscal System with a Progressive Transfer	139
3-21	Addition of a Neutral Tax with an Unequalizing Effect to a Fiscal System with a Progressive Transfer	140
3-22	Addition of a Progressive Tax with an Unequalizing Effect to a Fiscal System with a Regressive Transfer	140

3-23	Addition of a Progressive Tax with an Unequalizing Effect to a Fiscal System with a Neutral Transfer	141
3-24	Addition of a Progressive Tax with an Unequalizing Effect to a Fiscal System with a Progressive Transfer	141
3-25	Marginal Contribution of a Tax with Multiple Taxes and Transfers in Place	143
3-26	Marginal Contribution of a Transfer with No Other Tax or Transfer in Place	145
3-27	Addition of a Neutral Transfer with Unequalizing Results	145
3-28	Marginal Contribution of a Transfer with a Tax in Place	147
3-29	Addition of a Regressive Transfer with an Equalizing Effect to a Fiscal System with a Regressive Tax	147
3-30	Addition of a Regressive Transfer with an Equalizing Effect to a Fiscal System with a Neutral Tax	148
3-31	Addition of a Neutral Transfer with an Equalizing Effect to a Fiscal System with a Neutral Tax	148
3-32	Addition of a Regressive Transfer with an Equalizing Effect to a Fiscal System with a Progressive Tax	149
3-33	Addition of a Neutral Transfer with an Equalizing Effect to a Fiscal System with a Progressive Tax	150
3-34	Addition of a Progressive Transfer with an Unequalizing Effect to a Fiscal System with a Progressive Tax	150
3-35	Marginal Contribution of a Transfer with a Tax in Place	151
3-36	Addition of a Regressive Transfer with an Equalizing Effect to a Fiscal System with a Regressive Tax	152
3-37	Addition of a Neutral Transfer with an Equalizing Effect to a Fiscal System with a Regressive Tax	152
3-38	Addition of a Neutral Transfer with an Unequalizing Effect to a Fiscal System with a Regressive Tax	153
3-39	Addition of a Progressive Transfer with an Unequalizing Effect to a Fiscal System with a Regressive Tax	153
3-40	Addition of a Regressive Transfer with an Equalizing Effect to a Fiscal System with a Neutral Tax	154
3-41	Addition of a Neutral Transfer with an Equalizing Effect to a Fiscal System with a Neutral Tax	154
3-42	Addition of a Neutral Transfer with an Unequalizing Effect to a Fiscal System with a Neutral Tax	155
3-43	Addition of a Progressive Transfer with an Unequalizing Effect to a Fiscal System with a Neutral Tax	155
3-44	Addition of a Regressive Transfer with an Equalizing Effect to a Fiscal System with a Progressive Tax	156
3-45	Addition of a Neutral Transfer with an Unequalizing Effect to a Fiscal System with a Progressive Tax	156
3-46	Addition of a Progressive Transfer with an Unequalizing Effect to a Fiscal System with a Progressive Tax	157
3-47	Marginal Contribution of a Transfer with Multiple Taxes and Transfers in Place	159

3-48	Effect of the Total System with One Tax and One Transfer (using modified Kakwani index)	161
3-49	Addition of a Regressive Tax and a Regressive Transfer with an Equalizing Effect to a Fiscal System	161
3-50	Addition of a Regressive Tax and a Neutral Transfer with an Equalizing Effect to a Fiscal System	162
3-51	Addition of a Neutral Tax and a Regressive Transfer with an Equalizing Effect to a Fiscal System	162
3-52	Addition of a Neutral Tax and a Neutral Transfer with an Equalizing Effect to a Fiscal System	163
3-53	Effect of the Total System with One Tax and One Transfer (using traditional Kakwani index)	164
3-54	Addition of a Neutral Tax and a Neutral Transfer with an Unequalizing Effect to a Fiscal System	165
3-55	Addition of a Neutral Tax and a Progressive Transfer with an Unequalizing Effect to a Fiscal System	165
3-56	Addition of a Progressive Tax and a Neutral Transfer with an Unequalizing Effect to a Fiscal System	166
3-57	Addition of a Progressive Tax and a Progressive Transfer with an Unequalizing Effect to a Fiscal System	166
3-58	Using an Actual Tax, T , to Simulate a Hypothetical Tax, T^{NR} , That Does Not Create Reranking	173
4-1	Summary of the Problems with Conventional Measures	182
4-2	Poverty, Inequality, and Fiscal Impoverishment in Developing Countries	183
4-3	Fiscal Impoverishment and Gains of the Poor in Developing Countries	192
6-1	Example of Re-Indexing: Original Data	231
6-2	Example of Re-Indexing: Calculating the Re-Indexed SPI	231
6-3	Example of Re-Indexing Using Spatial Poverty Lines: Original Data	232
6-4	Example of Re-Indexing Using Spatial Poverty Lines: Calculating the Re-Indexed SPI	232
6A-1	Comparing Income Components: The Canberra Group and CEQ	282
6A-2	Comparing Methodological Assumptions: The Canberra Group and CEQ	283

8-19	Graphing Options	441
9-1	Sheets Presented in Section F: Results by Race and Ethnicity	450
9-2	Types of Variables and Options Guide for <code>ceqrace.ado</code>	452
10-1	Fiscal Impoverishment (circa 2010): Contributory Pensions as Deferred Income (in %)	502
10-2	Progressivity and Pro-Poorness of Education and Health Spending, Summary of Results	505
11-1	Government Spending and Revenue Structure in Percentage of GDP for Argentina 2012	519
11-2	Gini and Headcount Index by Income Concept for Argentina 2012	530
11-3	Poverty Reduction Efficiency and Effectiveness Indicators of Direct Transfers for Argentina 2012 in Percentages	534
11-4	Coverage and Distribution of Benefits and Beneficiaries by Program in Argentina 2012	535
11-5	Incidence of Taxes and Transfers on Income Distribution in Percentages for Argentina 2012 (benchmark case)	538
11-6	Incidence of Taxes and Transfers on Income Distribution in Percentages for Argentina 2012 (sensitivity analysis)	538
11-7	Income Distribution by Decile for Argentina 2012	541
11-8	Incidence of Taxes and Transfers on Poverty in Percentages in Argentina 2012 (benchmark case)	544
11-9	Incidence of Taxes and Transfers on Poverty in Percentages in Argentina 2012 (sensitivity analysis)	544
11-10	Income Distribution by Socioeconomic Group in Argentina 2012	547

11-11	Fiscal Mobility Matrices (benchmark case): Market to Disposable, Consumable, and Final Income	548
11-12	Fiscal Mobility Matrices (sensitivity analysis): Market to Disposable, Consumable, and Final Income	550
12-1	Gini Coefficient and Its Change with Respect to Market Income by Ethnic Groups	560
12-2	Headcount, Poverty Lines (in US\$)	562
12-3	Percent of Individuals Living in Beneficiary Households	564
13-1	Structure of Chile's Government Spending, 2013	571
13-2	Structure of Chile's Government Revenues, 2013	573
13-3	Fiscal Mobility Matrices from Market Income plus Pensions to Consumable Income	588
13A-1	Marginal Contributions to Inequality by End Income Concept, Concentration Coefficients, and Kakwani Indexes for All Fiscal Interventions	601
14-1	Benchmark Scenario: Population and Income Shares of Market Income	614
14-2	Benchmark Scenario: Incidence of Direct and Indirect Taxes by Socioeconomic Group (% of market income)	615
14-3	Benchmark Scenario: Incidence of Personal Income, Interest, and Dividend Taxes by Socioeconomic Group (% of market income)	618
14-4	Benchmark Scenario: Incidence of ITBIS and Excises Taxes by Socioeconomic Group (% of market income)	620
14-5	Progressivity Indices for Direct and Indirect Taxes: Country Comparisons	623
14-6	Incidence of Direct Transfer Programs on Socioeconomic Class Income (percentages)	625
14-7	Distribution of Health and Education Spending by Socioeconomic Group (% of market income)	631
14-8	Dominican Republic: Poverty and Inequality Indicators at Each Income Concept	639
14-9	Average per Capita Income in Each Market Income Decile, in Dominican Pesos per Year	640
14-10	Poverty Headcount Rate for the US\$2.50 PPP a Day for Each Income Concept (in percentages)	642
14-11	Taxes, Transfers, and Subsidies: Overall Redistributive Effect (decline in Gini points; shown as positive)	645
14-12	Beckerman and Immervoll Effectiveness Indicators	647
14-13	Estimated Resource Needs to Close Existing Social Gaps in the Dominican Republic	648
14-A1	Composition of Taxes in the Dominican Republic (2013)	662
14-A2	Composition of Expenditures in the Dominican Republic (2011 and 2013)	663
14-A3	Composition of Public Education Expenditure in the Dominican Republic (2013)	665
