INDEX

- Abramovsky, Laura, 289
Absolute poverty gap, 190–91
Acevedo, Carlos, 668
ACS (American Community Survey), 240, 259
Actis, Jose Luis, 627, 656
Actual use approach to health spending, 260–61, 295–96
Adult equivalence, 228–30
Afkar, Rythia, 14
Africa: EUROMOD use in, 285; indirect taxes in, 328, 350. *See also specific countries*
Agricultural subsidies, 678, 753, 765–66, 775
Aide Medicale Gratuite (Free Health Care) program (Tunisia), 732
Alam, Shamma A., 14
Alleyne, Dillon, 357
Alm, James, 327, 352
Almost Ideal Demand system, 333
Alternate survey method of income identification, 240–41
Alvaredo, Facundo, 221
American Community Survey (ACS), 240, 259
Amiel, Y., 179, 179n8
Araar, Abdelkrim, 56, 114, 332–33, 339, 380, 429, 434
Aranda, Rodrigo, 11, 56, 366, 447
Araujo, Angela Maria Carneiro, 563
Argentina, 516–53; Bicentennial Scholarships program, 524n13; cash transfer programs, 523–25; Consumable Income, 518, 530, 531, 533, 546; contributory pensions, 21; corporate taxes, 516; coverage of direct transfers, 533; data sources, 526–29; direct taxes, 520–21; Disposable Income, 518, 527, 530, 533, 546; Early Retirement Program, 520, 523; education spending, 525–26; effectiveness of direct transfers, 533; Employment and Training Insurance, 524; Families for Social Inclusion Program, 524, 533; Family Allowances, 524; Final Income, 518, 533, 537, 546, 547; fiscal mobility, 546–51; fiscal system, 485, 518–26; Gross Income, 522; health spending, 507, 525–26; incidence analysis, 533–37; indirect taxes, 521–23; inequality impact of taxes and transfers, 529–33; inference method for income identification, 237; Market Income, 518, 528, 529, 533, 534, 537, 546; methodological assumptions, 526–29; National Program of Scholarships, 524n13; near-cash transfer programs, 524–25; noncontributory pensions, 523; old-age social insurance contributory pensions, 21; Pension Fund Inclusion Plan, 520; Pension Moratorium, 520, 523, 533; personal income tax, 516, 520; poverty impact of taxes and transfers, 529–33, 537–46; progressivity, 537; redistributive effect, 478, 479, 487, 488; School Feeding Program and Community Kitchen, 524, 525; simulation method for income identification, 239; social spending, 625; subsidies, 525; Taxable Income, 520; unemployment insurance, 524, 525; Universal Allowance per Child, 516, 520, 523, 533; University Scholarships program, 524–25; VAT, 521–23; Youth with More and Better Jobs program, 524, 525
Argentine Public Spending Association, 529

- Aristy-Escuder, Jaime, 251, 252, 270, 603, 604
- Armenia: contributory pensions, 265n66; education spending, 504, 633; fiscal impoverishment, 184, 770; health spending, 507; progressivity of taxes, 617; redistributive effect, 478, 479, 488, 503, 509
- Arunatilake, Nisha, 14, 237
- Assumption testing, 406, 440–41
- Atkinson, Anthony B., 230, 400, 509
- Atkinson-Plotnick index of reranking, 35, 120, 387
- Australia, EUROMOD use in, 285
- Average cost method for health spending, 295–97
- Azevedo, Joao Pedro, 410
- Ballard, Charles L., 356n42
- Barofsky, Jeremy, 263, 295
- Barreix, Alberto, 605, 668
- Barrett, Garry, 378
- Bastagli, Francesca, 257–58, 260
- Beckerman, Wilfred, 384
- Beckerman-Immerwoll poverty effectiveness indicators, 433
- Beneke de Sanfeliu, Margarita, 667
- Bes, Martín, 605, 668
- Besley, T., 197
- Bicentennial Scholarships program (Argentina), 524n13
- Bill & Melinda Gates Foundation, lxxvi
- Birdsall, Nancy, 373, 422
- Blackman, Ana Elisa De Carli, 554, 555
- Bolivia: education spending, 504; fiscal impoverishment, 184, 193, 770; health spending, 507; poverty incidence, 643; production for own consumption, 247; redistributive effect, 478, 479, 488, 503, 509, 593, 595, 597, 641, 767; simulation method for income identification, 239; social spending, 625
- Bolsa Família (Brazil): direct identification of income, 237; and fiscal impoverishment, 193, 194n17, 195; marginal contributions to vertical equity, 404; outliers in data, 227; underestimation of beneficiaries, 267
- Bondarenko, Elena, 14
- Bonogas Chofer program (Dominican Republic), 609n22, 638
- Bonogas Hogar program (Dominican Republic), 609n22, 624, 625, 627, 638, 657
- Bono Luz program (Dominican Republic), 624, 625, 627, 628, 638, 656, 657
- Bracket creeping, 516n1
- Brazil, 554–67; Consumable Income, 556, 559, 561; data sources, 411, 557–58; definitions, 556; Disposable Income, 556, 560; energy subsidies, 256; ethno-racial inequality in, 447–74; Family Expenditure Survey, 558; Final Income, 556, 563; fiscal impoverishment, 177–78, 184, 193–96; fiscal system, 194, 485, 557; health spending, 497, 507; income misreporting and discrepancies, 269; indirect taxes, 89; inequality impacts of taxes and transfers, 560; inference method for income identification, 237; Market Income, 556, 560, 561, 563; methodology, 555–58; poverty impacts of taxes and transfers, 561–63; poverty incidence, 643; poverty lines, 369, 372; progressivity of taxes, 617; redistributive effect, 478, 479, 487, 488, 493, 593, 595, 597, 641, 644; Scholarships program, 563; simulation method for income identification, 239; social spending, 557, 625; Special Circumstances Pensions, 563; taxes, 89, 194, 485, 557, 617; underestimation of beneficiaries, 267. *See also* Bolsa Família
