Cities in Asia by and for the People

Publications

The **International Institute for Asian Studies (IIAS)** is a research and exchange platform based in Leiden, the Netherlands. Its objective is to encourage the interdisciplinary and comparative study of Asia and to promote (inter)national cooperation. IIAS focuses on the humanities and social sciences and on their interaction with other sciences. It stimulates scholarship on Asia and is instrumental in forging research networks among Asia Scholars. Its main research interests are reflected in the three book series published with Amsterdam University Press: Global Asia, Asian Heritages and Asian Cities.

IIAS acts as an international mediator, bringing together various parties in Asia and other parts of the world. The Institute works as a clearinghouse of knowledge and information. This entails activities such as providing information services, the construction and support of international networks and cooperative projects, and the organization of seminars and conferences. In this way, IIAS functions as a window on Europe for non-European scholars and contributes to the cultural rapprochement between Europe and Asia.

IIAS Publications Officer: Paul van der Velde

IIAS Assistant Publications Officer: Mary Lynn van Dijk

Asian Cities

The Asian Cities Series explores urban cultures, societies and developments from the ancient to the contemporary city, from West Asia and the Near East to East Asia and the Pacific. The series focuses on three avenues of inquiry: evolving and competing ideas of the city across time and space; urban residents and their interactions in the production, shaping and contestation of the city; and urban challenges of the future as they relate to human well-being, the environment, heritage and public life.
