The background of the cover is a deep space image. At the top, two bright stars with blue and white hues are visible, each with a four-pointed diffraction pattern. Below them, a faint, elongated blue galaxy is visible. In the lower half, a large, complex galaxy system is shown, featuring a bright blue core and a large, diffuse, reddish-brown structure that appears to be a gas cloud or a galaxy in the process of forming or merging. The overall color palette is dominated by deep blacks, blues, and reds.

FUNDAMENTALS OF GALAXY DYNAMICS, FORMATION AND EVOLUTION
