Energías libres es una ilustración que invita a la implementación de energías alternativas en las actividades comunitarias en los territorios, entre las alternativas se encuentran: Bicimáquinas, estufas roquet, recolección de aguas lluvias, biodigestores, poli-sombras, paneles solares, bombeo de agua y agroecología. (Free Energies seeks to inspire the adoption of alternative energy and resource solutions in local communities in Latin America, including: pedal-powered machines, rocket stoves, rainwater harvesting, biodigesters, shade netting, solar panels, local water source development, and agroecology).
