Rachel M. Magee, University of Illinois Urbana-Champaign, USA

Amal W. Mostafa, Cairo University, Egypt

Travis L. Wagner, University of Illinois Urbana-Champaign, USA

Yuxiang (Chris) Zhao, Nanjing University, China

Editorial Information:

Each issue of *Library Trends* covers a specific thematic topic, with manuscript submissions organized by guest editor(s) as selected by the editor in chief based on the content of proposals submitted. Proposals should include the nature and scope of the proposed topic, the contributions of the articles to be included, and the names of potential authors. The journal does not accept single-article submissions. For more information, visit press.jhu.edu/journals/library-trends.

Please send your ideas, inquiries, or issue proposal to librarytrends@illinois.edu.

Back Issues:

Back issues of *Library Trends* (1952 through two years prior to current issue) are available online through IDEALS, the digital repository for scholarly works produced at the University of Illinois Urbana-Champaign (ideals.illinois.edu/). Launched in 2006, IDEALS collects various works of research and scholarship, including working papers, technical reports, journal articles, and other pertinent material. Benefits include worldwide accessibility, a permanent URL for each item deposited, long-term preservation in digital form, and full-text indexing.
