Tropical Medicine in Colonial India

Postcolonialism across the Disciplines 10
Postcolonialism across the Disciplines

Series Editors
Graham Huggan, University of Leeds
Andrew Thompson, University of Leeds

Postcolonialism across the Disciplines showcases alternative directions for postcolonial studies. It is in part an attempt to counteract the dominance in colonial and postcolonial studies of one particular discipline – English literary/cultural studies – and to make the case for a combination of disciplinary knowledges as the basis for contemporary postcolonial critique. Edited by leading scholars, the series aims to be a seminal contribution to the field, spanning the traditional range of disciplines represented in postcolonial studies but also those less acknowledged. It will also embrace new critical paradigms and examine the relationship between the transnational/cultural, the global and the postcolonial.
