Abbreviations

References to Houellebecq’s works are given using the following abbreviations, with page numbers provided for the French original and the published English translation where available. In all cases, whether the French or the English text is quoted, the French page reference is given first and the English second. Wherever possible, I have referred to paperback or ‘livre de poche’ editions of the texts, since these will be most readily and cheaply available to students and new readers.

I2  *Interventions 2*. Paris: Flammarion, 2009 (an expanded edition of *Interventions*, but some of the texts from the first volume are omitted). Translations my own
Michel Houellebecq
