Abandonment: Bronze Age Mesopotamia, 178, 179; northern Mexico, 204; Supe Culture, 128–29
Aborigines, social complexity, 123–24
Abu Dibbis depression, 177
Acolman, 156
Adaptability, 147, 157
Adaptive cycle, in Mesopotamia, 181
Agave cultivation, 204–6
Agriculture, 24, 124, 239, 241; Basin of Mexico, 143, 149, 165; coastal Peru, 125–27; diversification of, 203–6, 213, 221; and floods, 176–77; Mesopotamia, 168, 173–76, 183, 186; salinization, 178–79; Teotihuacan, 151–52, 153–54; US Southwest, 206–10; and volcanic eruptions, 52–55
Ainu, 24, 34–35, 37
Akkadian state, 183
Álftaver, 73
Andean coast, 117, 118; and ENSO, 9–10, 119–20
Andes Mountains, 127, 140
Archaeology, 4–5, 58, 224; applied, 12–16; Caribbean Islands, 94–95; coastal Peru, 128–33; collation, 121–22; correlation and causation in, 122–23; and disaster management, 106, 107; Kuril Islands, 22–25, 28–30, 30–31; Mesopotamian, 171–73; scales of complexity, 123–24; secure information, 120–21
Architecture: earthquake-resistant, 59, 65; household, 9, 13–14, 101–2, 240; Mayan, 56; talud-tablero, 53; Teotihuacan, 153–54; urban, 10
Arenal area: social organization, 57, 229; vulnerability and resilience, 45–50, 52, 59
Arenal volcano, eruptions of, 45–46, 47, 64–65
Art, Maya Classic period, 56
Ascope Canal, 129
Askja, 73–74
Assyrian Empire, 184, 185
Atlatongo, 155, 156
Atmospheric phenomenon, AD536, 58
Authority, local nodes of, 16, 57
Avulsion, 177
Aztecs, 156
Babylon, 183–84
Bajareque architecture, 59, 65
Bands, 224, 227
Bárdarbunga volcano, 72
Barriles culture, 8; and Baru eruption, 51–52, 57
Baru volcano, 8, 51, 51–52, 57
Belief systems, Caribbean, 100. See also Religion
Biodiversity, Kuril Islands, 21, 22
Biogeography, Kuril Islands, 20–22
Biomass, and Okhotsk Sea circulation, 32
Boinayel, 100
Boqueron volcano, 50, 57
British Isles, volcanic pollution in, 75
Bronze Age: archaeology, 171–73; environmental hazards, 173–80, 195; in Mesopotamia, 168–71, 186, 187; resilience and institutional power in, 182–85
Buddhism, 58
Buena Vista, Bahia de, 104
Calakmul, 55
Calderas, Kuril Islands, 27, 28, 29
Canal systems; Hohokam, 208–9; Teotihuacan, 153
Caracol, 55
Caral, 125, 128
Caribbean islands, 9, 91, 93; archaeology of, 94–95; disaster management, 114–15; household architecture, 101–2; hurricanes, 98–100; precipitation changes in, 97–98; sea level rise, 95–97, 97; settlement locations, 13, 102–5
Carrying capacity, Teotihuacan, 153
Carthage, AD 536 phenomenon, 58
Cassiodorius, 58
Causation, 121, 122–23
Caves, as hurricane shelter, 104
Cemeteries, Arenal area, 52
Central America, 7, 13, 16, 240; earthquake-resistant architecture, 59, 65; volcanism, 44–45, 64, 229
Ceremonial centers, 54, 56; Teotihuacan, 151, 153–54
Ceren, and volcanic eruptions, 48–50
Ceren architecture, 13–14, 59, 65
Chato, Cerro, 46
Chichén Itzá, 56
Chiefdoms, 225; Barriles, 51–52, 57
Chimu Empire, 130
China, 58
Chirinkotan Island, 24, 28
Chiriquí, Río, 51, 52
Chirpoi Island, 24, 28
Cholula, 53
Chontal Maya, 55–56
Chronicle of Michael the Syrian, 173
City-states, Mesopotamia, 169
Ciudad Credisa, 48
Classic Maya, collapse of, 55–56
Classic period, Teotihuacan Valley, 155
Climate, 7, 69, 93, 94, 200; agave cultivation and, 205–6; irrigation systems and, 206–10; in Mesopotamia, 168, 176, 183
Climate change, 238, 241; and Bronze Age Mesopotamia, 172, 185; Caribbean, 95, 115; Kuril Islands, 32–33, 35; Teotihuacan, 10, 146, 154
Coatrísque, 100
Collation, 121–22; Supe Valley archaeology, 128–29
Colonization: Caribbean islands, 94; Iceland, 79
Columbus, Christopher, on hurricanes, 99
Complexity, scales of, 123–24
Constantinople, 58
Controlled breaching, 177
Cooperation, 228
Coordination, political, 228
Copan, 56
Correlation, 121, 122
Costa Rica, volcanic eruptions in, 45–46, 64–65
Crops, diversification, 203–6
Cuba, 9, 91, 94; household architecture, 101–2; rising sea level, 96, 97; settlement locations in, 102–5
Cuicuilco, 53–54, 54, 56
Cultural evolution, 224, 226
Cuneiform, 172–73, 176
Cyclones, 9. See also Hurricanes
Daghara, salinization, 178–79
Deaths: from volcanic eruptions, 70–71, 75, 76; from winter weather, 176
Deforestation: Basin of Mexico, 143, 146; Iceland, 79; Maya region, 55, 56; Teotihuacan region, 10, 149–50, 239
Depopulation, Mesa Verde region, 230–31
Desertification, in Southern Mesopotamia, 177–78
Diamond, Jared, on response to environmental change, 241–42
Disasters, 2, 232; elite responsibility for, 8, 58; management of, 12, 15–16, 106, 107, 114–15, 240
Disaster studies, archaeological, 4–5, 106, 107
Diseases, El Niño and, 119, 127
Diversity, 1; subsistence, 213, 221
Drought, 4, 9, 55, 92, 154, 204, 230;
   Mesopotamia, 168, 173–75; Mimbres region, 207–8
Dura Europos, 169
Dust storms, and drought, 174

Early Bronze Age, 178; written record, 172–73
Early Dynastic branch, 178
Early Postclassic period, drought, 154
Earthquakes, 4; architecture built for, 59, 65;
   Basin of Mexico, 148–49; coastal Peru, 119, 127, 128; knowledge of, 44, 58; Kuril Islands, 30–31; and volcanic eruptions, 48, 50
Economies: Bronze Age Mesopotamia, 170–71; Iceland’s, 71; redistributive, 57
Ecosystem management, 240–41
Education, 15, 240
Ekarma Island, 27
Eldfell volcano, 72
Eldgjá volcano, 68, 69, 71, 72, 78
Elites, 8, 11, 58
El Niño Southern Oscillation (ENSO):
   Andean coast, 9–10, 119–20, 127–28, 140; food procurement strategies and, 124–25; frequency of, 130–33, 134
El Paraíso, 129
El Salvador, 16; Ceren architecture, 13–14, 59, 65; volcanic eruptions in, 47–50, 57
Emergencies, decision-making and response to, 46–47
Emergency planning, volcanic, 80–81
Engineering, hazard-disaster research, 3–4
Environment, 1, 201; coastal Peru, 140–41; Iceland, 79–80
Environmental change, 1–2, 7, 238, 243–44;
   Caribbean islands, 9, 92; and global climate systems, 93–94; response to, 241–42; and social-ecological systems, 198–200, 210–13, 237; and social evolution, 11–12; Teotihuacan Valley, 146, 149–51, 155–56
Environmental history, collations of, 121–22
Epidemics, 58
Epi-Jomon culture, 23, 24, 34, 35, 36
Erosion: Icelandic settlement and, 79–80; Teotihuacan Valley, 150–51, 152
Euphrates River, 169; channel shifts, 177–78; floods on, 176–77
Europe, epidemics in, 58
Eyjafjallajökull: eruption of, 81, 82; tephra from, 74, 83
Famines: Icelandic, 70–71, 75, 76; Mesopotamia, 174; northern Mexico, 204
Farms, Icelandic, 71, 73. See also Agriculture; Pastoralism
Fertilizers, in Northern Mesopotamia, 179
Festivals, seasonal, 15
Fisheries: coastal Peru, 126; Iceland, 71; Kuril Islands, 21, 25
Floods, 3, 4, 9, 158, 239; Caribbean, 9, 92, 96, 103, 104; El Niño and, 119–20, 127, 128; Mesopotamia, 176–77; Teotihuacan region, 10, 151, 155; volcanicogenic, 69, 72–73, 75–76, 81–82, 84
Fluorosis poisoning, 69, 74–75
Fog, Kuril Islands, 31
Folklore, 15
Food procurement strategies. See Subsistence
Formative period, volcanic eruptions, 53–54
Frambruni volcano, 72
Fur trade, Japan-Kuril, 34
Geopolitics, Kuril Islands, 24–25
Gigjökull, 82, 83
Gjálp volcano, 72
Glaciers, volcanic eruptions and, 69, 72, 82, 83
Global Human Ecodynamics, 5
Greater Antilles, 93, 94
Greenland, Norse on, 242
Grímsvötn volcano, 72
Groundwater, and volcanic eruptions, 75
Groups, size and structure of, 226–28, 233(n2)
Guabancex, 100, 103
Guatemala, Ilopango eruption, 48
Habbaniyah depression, 177
Hallmundarhraun volcano, lava flows from, 72
Hammurabi, 177, 183–84
Hamoukar, 174, 175, 186
Hazard awareness, 15, 44
Hazard-disaster research, 3–4, 43–44
Hazard management, 12, 15; Bronze Age Mesopotamia, 170–71, 173–80; volcanic, 80–81

INDEX
Hazards, 3, 6, 42, 92, 106, 200, 201; Caribbean, 91, 95–100; coastal Peru, 126–33; Basin of Mexico, 148–49; Kuril Islands, 25–35, 42; Mesopotamia, 167, 170–71, 173–80, 195; social evolution and, 228–31; social response to, 8–9, 223–24; urban centers and, 10–11; volcanic, 69–76, 79–80, 83–84, 89, 238–39

Haze Famine, 76

Heimaey, 72

Hekla volcano, 71, 73; toxic fallout from, 74–75

Hispaniola, archaeology of, 94

Hof, 73

Hohokam, 201, 202, 230; irrigation systems, 206, 208–9; rigidity trap, 212–13; social isolation, 11, 214

Hokkaido, 27, 33; and Kuril Islands, 23, 34; Satsumon culture on, 23–24

Holguín, urban planning in, 103

Honshu, Hokkaido trade, 34

Hunter-gatherers, 71, 124, 227; Kuril Islands, 19, 23–24, 30; mobility of, 36–37

Hurricanes, 13, 57; Caribbean, 71, 78, 80; eruption of, 82–83; flooding, 73, 76, 81

Katrina, Hurricane, victims of, 57

KBP. See Kuril Biocomplexity Project

Key hazards. See Hazards

Klamath, 47

Knowledge systems, 15, 44, 47, 240; ecological, 9, 12; hazards and disasters in, 57–58, 59, 106

Krisuvík farm, 71

Kunashir Island, 25, 28, 35

Kuril Biocomplexity Project (KBP), 19, 22, 30

Kuril Islands, 7, 42; archaeology, 22–25; biogeography of, 20–21; earthquakes and tsunamis, 30–31; hunter-gatherers in, 19, 36–37; settlement patterns, 13, 35–36, 239; social evolution on, 228–29; socioeconomic connections, 33–35; volcanic eruptions, 25–30, 228; weather and climate change, 31–33

Lágeyjarhverfi, 73

Lahars, from Popocatepetl, 53

Laki volcano, 69, 70–71, 72, 75, 76

Lambayeque Valley, 127–28

Landeyjar, 72–73

Landnám tephras layer, 78

Land ownership, 231, 232

Landslides, Kuril Islands, 27

La Quemada, 11, 201, 202, 203–4

Late Bronze Age, 174, 178; state collapse in, 184–85
Late Horizon, coastal Peru, 130
Late Intermediate Period, coastal Peru, 130
Late Postclassic period, Teotihuacan, 147
Late Preceramic Period, coastal Peru, 129
Lava flows, Iceland, 71–72, 75–76
La Ventilla, 153
Lesser Antilles, 93
Lineages, and subsistence issues, 230–31
Livestock: in Iceland, 71, 79; in Mesopotamia, 169, 175; and volcanic eruptions, 70, 73, 74–75
Locust outbreaks, 180
Loma Caldera, 48, 49, 50, 57
Lomas de Punta Alegre caves, 104
Los Buchillones, 101–2, 104, 105

Maize cultivation, 204, 230
Makanrushi Island, 27
Malpaso Valley, 201; agave cultivation, 204–5; crop diversification, 203–4
Manchuria, 34
Marine resources: coastal Peru, 126; Kuril Islands, 21
Markarflót, 73, 84
Matua Island, 26, 26–27
Maximo Gomez, 102
Maya: collapse of Classic, 55–56; Ilopango eruptions, 47–48
Mazama, Mt., 47
Mazapan phase, 150
Medieval period, 58, 242; Iceland, 8–9, 67–68
Medvezhya volcano, 27
Mega-disaster, religious response to, 58–59
Mesa Verde, 201, 202, 211; rigidity traps, 230–31
Mesoamerica, 229; social stratification, 56–57
Mexico, 11; northern, 200, 203–5, 221; volcanism, 7, 44–45, 52–55
Mexico, Basin of, 153, 157, 158, 165; paleoenvironmental studies, 143, 144–45, 148
Miccaotli phase, 150
Middle Ages. See Medieval period
Migration, US Southwest, 230–31
Military bases, Kuril Islands, 25, 27
Millet farming, 24

Mimbres, 201, 202, 230; environmental change, 11, 211; irrigation systems, 206, 207–8
Miraflories branch, 56; Ilopango eruption, 47–48, 55, 229
Mitigation, 6, 73, 106; Caribbean island strategies, 9, 100, 114–15; disaster, 12, 229–30; hydraulic systems, 154–56; Preclassic strategies, 7–8
Mobility, 240; hunter-gatherer societies, 36–37
Monumental architecture, Teotihuacan, 153–54
Muhammad, 58–59
Myrdalssandur, 73, 76
Myvatnssveit, 71
Myth, 3, 15; hazard and disaster information in, 57–58

Naiji pottery, 24
Natural disasters, 2, 12, 232; institutional responses to, 186–87; societal responses to, 229–30
Navajas, Cerro de las, obsidian from, 145
New Orleans, response to Katrina, 57
Norse, on Greenland, 242
Northern Mesopotamia, 168–69, 183, 184; environmental hazards, 173–80
North Pacific low pressure system, 32
Northwest Coast, earthquake and tsunami knowledge, 44, 58

Obsidian, 34, 145
Ocean currents, Caribbean, 93
Ögundarhraun lava, 71
Okhotsk culture, 23–24, 34, 35, 36
Okhotsk Sea: circulation patterns, 32–33; tsunamis, 30, 31
Old Babylonian Period, 183–84, 186
Olive trees, 176
Onekotan Islands, 24
Öræfajökull, 73
Öræfajökull volcano, 71
Oral histories, 2, 47
Otumba, 150, 151; erosion, 152
Oyashio Current, 32

Paleoenvironmental studies, 154; Teotihuacan Valley, 143, 144–45, 148, 149–50
Paleolithic, social organization in, 224, 227
Panama, 51; Bariles culture in, 52, 57
Papua New Guinea, oral history in, 47
