The Carolyn and Ernest Fay edited book series, based initially on the annual Fay Lecture Series in Analytical Psychology, was established to further the ideas of C. G. Jung among students, faculty, therapists, and other citizens and to enhance scholarly activities related to analytical psychology. The Book Series and Lecture Series address topics of importance to the individual and to society. Both series were generously endowed by Carolyn Grant Fay, the founding president of the C. G. Jung Educational Center in Houston, Texas. The series are in part a memorial to her late husband, Ernest Bel Fay. Carolyn Fay has planted a Jungian tree carrying both her name and that of her late husband, which will bear fruitful ideas and stimulate creative works from this time forward. Texas A&M University and all those who come in contact with the growing Fay Jungian tree are extremely grateful to Carolyn Grant Fay for what she has done. The holder of the McMillan Professorship in Analytical Psychology at Texas A&M functions as the general editor of the Fay Book Series.

A list of titles in this series appears at the end of the book.
