An American Body Politic
The emergence of Transnational American Studies in the wake of the Cold War marks the most significant reconfiguration of American Studies since its inception. The shock waves generated by a newly globalized world order demanded an understanding of America’s embeddedness within global and local processes rather than scholarly reaffirmations of its splendid isolation. The series Re-Mapping the Transnational seeks to foster the cross-national dialogues needed to sustain the vitality of this emergent field. To advance a truly comparativist understanding of this scholarly endeavor, Dartmouth College Press welcomes monographs from scholars both inside and outside the United States.
