Index

Note: The italic letters b, f, n, or t following a page number indicate a box, figure, note, or table on that page. An f also designates illustrations. Double letters mean more than one such item on a single page.

Accounting
choice of apportionment factors in, 242–243
cross-border, as export of service, 264–265
formulary apportionment vs. separate, data for MNEs, 229–230, 237–241, 258–259, 259–260
Advanced economies, 122, 134
GVC income in countries with, 6, 136, 137–150, 138f–139f, 140f, 141f, 143f, 147, 148f, 149f, 160n9
GVC manufacturing workers in, 150–154, 152
high-skilled specialization GVC jobs in, 154–156, 156
skilled labor in, 124, 157
Africa, 276
factor shares of local production inputs in, 251, 253f, 255f
foreign affiliates of, parents and value-added, 8, 231, 245f, 246, 249f, 251
Alfred P. Sloan Foundation, funding from, 282
Annual Survey of Industrial Production (ASIP), Chinese enterprises in, 207, 212–213, 213f, 216, 217f
Annual Survey of Manufacturers, expected FGP and, 33, 103
ANSKILL database, linked to ISCO, 197
Apparel industry, 87f, 99
emergent FM in, 84, 106n2
use of FM in, 88, 89f
wholesale trade in, 39, 40t, 90f, 92f, 94, 106n2
Apple (firm), 87f, 103
subcontracting by, 3, 165
Argentina, benchmark national I-O tables and OECD coverage of, 202n5
ASEAN (Association of Southeast Asian Nations), 200
Asia, 183, 200
factor shares of local production inputs in, 251, 253f, 255f
foreign affiliates of, parents and value-added, 8, 231, 245f, 246, 249f, 251
See also East Asia
ASIP (Annual Survey of Industrial Production), 207, 212–213, 213f, 216, 217f
Assembly operations, as poorly compensated activity, 122
Association of Southeast Asian Nations (ASEAN), Japanese foreign affiliates in, 200
ASUS (firm), electronic sales share of, 85f
Australia, 182f, 202n5
exports and service sector content from, 179, 180f
GVC income in, an advanced economy part of BRIIAT, 136,
137, 138f–139f, 139, 140f, 141f, 143f, 145f, 146, 148f, 149f
low foreign content in exports from, 172, 174, 175f
natural resources sector in, 145f, 146
Austria, benchmark national I-O tables and OECD coverage of, 202n5
Balance of Payments and International Investment Position Manual (BPM, IMF)
compatibility of, with SNA, 19, 229, 231
guidelines on statistics construction for FDI and trade, 233–234, 259n2
ISIC classification based on ownership in, 49–50, 72nn6–8
worldwide standards for national accounts, 26, 46, 72n3, 198
BEA. See Bureau of Economic Analysis
BEC. See Broad Economic Categories
Belgium, 189, 202n5
U.S. trade balance with, and affiliates, 199, 200ff
Benchmark Survey of Transactions in Selected Services and Intellectual Property Products with Foreign Persons (BE-120), 52, 54, 72–73n12, 77, 108n16, 267, 268f
Benchmark Survey of U.S. Direct Investment Abroad for U.S. Parents (BE-10A), 95, 108n16, 242
analysis of CMS on, 57–62, 73n22
description of, 51–54, 52f, 72n11
U.S. parents and, 57–58, 58f, 59tt, 60f, 61f
Bermuda, 7, 251
Bilateral Trade Database by Industry and End-Use (BTDIxE), OECD assumptions for its, 187, 202n6
BLS. See Bureau of Labor Statistics
BPBF (Business Processes and Business Functions), BLS, 84, 107n6
BPM. See Balance of Payments and International Investment Position Manual (IMF)
Brazil, 122, 265
benchmark, national I-O tables and OECD coverage, 184, 202n5
GVC income in, an emerging economy part of BRIIAT and BRIIMT, 6, 137, 138f–139f, 139, 140f, 141t, 143t, 145t, 148f, 149t
GVC service vs. manufacturing jobs in, 152f, 154

BRIIAT. See component countries, i.e., Brazil; Australia; India; Indonesia; Russian Federation; Turkey
BRIIMT. See component countries, i.e., Brazil; India; Indonesia; Mexico; Russian Federation; Turkey
Broad Economic Categories (BEC) classes of goods in, 190f–191f
trade data and, 133, 213, 215f
use of, codes for imported intermediates, 214, 218, 220, 225n5
BTDIxE (Bilateral Trade Database by Industry and End-Use), 187, 202n6
Bureau of Economic Analysis (BEA), 3
data collection and needs of, 31–33, 46
designated as main statistical source, 264–265, 266–267
IBT and, 238–239, 239f, 259n6
measuring manufacturing with CMS data by, 4–5, 46–47, 51–54, 52f, 57–62, 73n14, 95, 108n16
publication of income and assets data on foreign affiliates of U.S. multinationals by, 7–8, 234–235, 259n4
research at, 45, 70, 72n1
surveys by, 51–54, 52f, 70, 160n13, 232, 267
Bureau of Labor Statistics (BLS)
classification systems and, 3, 83
data collection and needs of, 31–33, 46, 107n6
FGP and, 33, 41n1, 83
Business Processes and Business Functions (BPBF, BLS), classification system, 84, 107n6
Business Register database, 111, 112
Businesses BPBF as classification system for, 84, 107n6
Businesses, cont.
census surveys of, 55–57, 73n15, 73n17, 111, 112–113
CMS activities by, 64–70, 64t, 65t, 66t, 67t, 68t
“establishment” of, 83–84, 88, 106n1, 107n5, 259n1
indirect taxes on, 238–239, 239f, 241, 243, 251, 258, 259n6
LBD on, and 2011 COS survey, 56, 63, 73n18–20
U.S. economic statistics and, 33, 41, 264, 282

income earned by, and skilled labor, 146–150, 148f, 149t
intangible, stock, 7–8, 23, 277
Census Bureau, 33, 205
Business Register database of, 111, 112
data collection and needs of, 31–33, 46, 70
designated as main statistical source, 264–265
details on wholesale trade from, 42n5, 83, 106n2
joint agreement on industrial classifications sought by, 3
measuring manufacturing with CMS data by, 4–5, 46–47, 54–57, 62–70, 73n16
surveys by, 52t, 54–57, 62–70, 71, 73n15–21, 73n23–24, 95, 103, 108n16
Census of Manufactures (CM), 52t, 55, 57, 73n21
Census of Wholesale Trade, 55, 89, 107n13, 107–108n14
forms in, 113–115
offshore fabrication and, 107–108n14
special questions in, for FGP classification, 100, 101t, 114–115
time series of CMS use found in, 90t–91t, 92t–93t, 94
CES (Conference of European Statisticians), 25–26
CES (Current Employment Statistics), 33, 36t, 83
Change-in-ownership principle, international transactions measured by, 50, 72n6–8
Chemicals industry, 88, 89t, 199, 200f
Chile, 202n5
exports and service-sector content from, 179, 180f
low foreign content in exports from, 172, 174, 175f
China, 157
benchmark, national I-O tables and OECD coverage, 184, 202n5
competitiveness of, 121–122, 175
government agencies of, and differing I-O frameworks, 206–207, 225n2
GVC income in, an emerging economy, 6, 137, 138f–139f, 139–140, 140f, 142, 143t, 144, 145t,
146, 147, 148f, 149t, 157, 160n9
GVC jobs in, 151, 152t, 154
intermediates imported by, 5–6, 7, 201, 205–206, 213–214, 218
rapid progress in, and shifts in how firms operate, 14, 31, 272–273
telecommunication services in, 263, 264, 267–269, 268t, 270b, 272–276

Companies, 84, 263
FGPs in Economic Census of, 5, 88–94
Form 10-K to SEC by, 5, 85–88, 107n10
incentives for, 2, 7
mixed FGP/IM vs. pure FM types of, 95, 108n16
operating, in Europe and tax accounting, 235–236
outsourcing, and NAICS, 3, 19–20, 23, 90t–91t, 92t–93t
single-unit, with second establishment in management sector, 96, 108n19
U.S. parent, of MNEs, 57–58, 61–62, 61t (see also under Multinational enterprises [MNEs])
Compensation
as apportionment factor, 238–239, 239f, 260n9, 260nn11–12
earnings and wages for labor as, 5–6, 45, 97–99, 98t, 122, 196, 260n10
Competition, 48, 121, 175, 282
GVC and, 154, 156
improving, in domestic industries, 169–170
new value-added measure of, needed, 122, 168–169, 196

Computer industries. See Electronics industry
Conference of European Statisticians (CES), classification implementation by, 25–26
Consumer goods
merchandise as, exports, 266t, 267, 269t
offshoring of, 84, 107n8
prices of, from domestic vs. foreign sources, 278–279
Consumer Price Index (CPI), deflation of GVC income using, 142, 160n10

China, cont.
as production site, 126–127, 129
U.S. and, contributions to value-added trade, 128–129, 128t
value-added manufactures in, 145t, 146
Chinese exports
conclusion about, 223–224
DVS in, 172, 174–175, 175f, 176, 176f, 177ff, 210t
estimating DVS for, in earlier work, 207–208
estimating DVS for, with boundaries and confidence, 208, 220–223, 221t, 222t (see also Vertical specialization [VS])
high-tech, made by foreign affiliates, 199–200
I-O table created for, 194, 206, 208–209, 224
import-use information in, 5–6, 7, 201, 205–206, 209–211, 210t, 216, 218, 219
microdata from, and firm heterogeneity, 208, 209, 213–216, 215t, 217t, 224, 225n3, 225n7
microdata from, and value-added trade, 7, 205–225, 211–213, 213t
proportionality assumption on, production, 205, 207, 216, 218, 224
Classification systems, 26, 107n8, 188, 197
balance of payments services, 192, 202n7
business, 84, 107n6
education, 134, 197

  firms engaged as, 87f, 89f, 94
  MSP relationship with, 84, 107n9
Factoryless goods producers (FGPs), statistical systems and, 1, 3, 13–42
Factoryless goods producers (FGPs), cont.

- background of U.S. statistical agencies' approach to, 4, 13–15, 15f
- changes important to data users, 32–33, 41
- ECPC involvement and recommendations, 20, 24–25, 26–27
- expected impact on economic statistics, 33–40, 36–37
- implementation planning, 25–27, 41f
- industries indicative of, activity, 35–38, 38t, 39f, 40f
- international response, 16–19
- new industrial classifications for, to track global supply chains, 2, 3, 21–24, 21f, 94–95
- U.S. response, 19–24, 21t
- U.S., implementation issues, 27–33, 30f

Factoryless goods producers (FGPs), U.S. measurement surveys, 45–77
- analysis of CMS on BE-10 survey, 57–62, 58f, 59f, 60f, 61f, 62f
- analysis of CMS on 2011 COS, 62–70, 63t, 64f, 65t, 66f, 67f, 68f, 69f
- classifying “factoryless” manufacturers, 47–50, 71, 94–95
- data collection on CMS, 51–57, 52t, 70, 75–77
- future work on, 70–71
- manufacturing with CMS data by BEA and Census Bureau, 4–5, 46–47

Factoryless goods producers (FGPs), U.S. scope of, 81–115
- Census of Wholesale Trade forms, 113–115
- conclusion, 105–106
- data construction, 111–112, 111t, 112nn1–4
- defining FM and FGPs, 82–84, 85f

Factoryless manufacturing (FM), 84, 86
- electronic sales by, firms, 84, 85f, 86f
- firms engaging in, 85–86, 88f, 89f
- insight on economic issues and, 104–105, 109f
- modifying classification practices for, 107f
- scope and scale estimates on, 94–95
- structure of, firms in semiconductor industry, 94, 95–99, 96f, 97f, 98f, 99f
- U.S. manufacturing including FGPs, 100–101, 101f

Federal Reserve, FGP impact on statistical programs of, 33
- FFE (Foreign-funded enterprises), 214–216, 215f, 217f, 219

FGPs. See Factoryless goods producers

Financial crises, global impact on domestic, 2, 170–171
- Financial services, 5, 230, 260n13

18–19, 188, 192, 202n7, 213
United States (U.S.), 36t, 202n5
domestic value-added content in
exports from, 172, 175f, 176, 176f,
177ff
firms in, and specialized high-value-
added activities, 121–122
GVC income in, an advanced-
economy part of NAFTA, 6, 136,
137, 138–139f, 139, 140f,
141t, 142, 145t, 147, 148f, 149t
GVC jobs in, vs. Europe and Japan,
123, 155
job opportunities and losses in, 1, 6,
151, 152t
multinational businesses
headquartered in, 7–8, 51–53,
57–58, 59t, 60t, 61–62, 61t
(see also Foreign affiliates of U.S.
parents)
National Security Agency (NSA), 265
national statistical agencies of (see
Bureau of Economic Analysis
(BEA); Bureau of Labor Statistics
(BLS); Census Bureau)
SEC of, and company financial
reports, 5, 33, 85–88, 107n10
trade balances of, 182, 182f, 199, 200f
U.S. International Trade Commission,
183, 264–265
U.S. law and legislation, securities in, 85,
107n10
U.S. Office of Management and Budget
(OMB), 4, 82, 102
ECPC recommendations accepted by,
27, 83–84
“establishment” defined by, 106n1,
259n1

Value-added trade, 5–7, 231
Chinese exports and microdata, 7,
205–225
consumption as production factor in,
125–127, 125f, 159n4, 160n5
costs in, 184, 187, 201
cross-border flows and international
methodology, 1, 6, 165–202
domestic and foreign contributions to,
128–129, 128t, 160n9
FGP reclassification and, 5, 100, 101t,
103–104, 108n22, 108–109n23,
manufactures by production factor
and, 123, 146–150, 148f, 149t
U.S. parent companies and, 61–62, 61t
Value-added trade, measurement of, 2,
5–6, 109n30, 165–202
alternative accounting frameworks
and, evaluation, 250–259
database evidence from input-output
tables, 172–183, 173t–174t, 175f,
176f, 177ff, 178f, 180f, 181f, 182f
definition of “trade in value-added,”
167–168, 167f
estimating, 183–196, 202n3–4
(see also under Organization
for Economic Co-operation
and Development [OECD], data
collected)
future improvements in, 193–196
going beyond, in accounting
framework, 196–201
informed public policymaking with,
168–172
statistical recommendations and,
166–167
Vertical specialization (VS)
boundaries and confidence in, 209,
218, 219–220, 221t, 225n4–7
import matrix structure and, 205–206,
224, 224n1
Videos, before and after the Internet,
277–280, 279f, 283n5, 283n7
Vietnam, benchmark national I-O tables
and OECD coverage of, 202n5
VS. See Vertical specialization
Wages, 134
costs of, 5–6, 45
high, and manufacturing production,
104–105, 109n28
Wholesale trade
Census Bureau and, 38–39, 42n5, 88–89
censuses of, 55, 89, 90t–91t, 92t–93t, 94, 107n13, 107–108n14, 113–115
classifications of FGP in, 22–23, 97–98, 98t, 159
CMS purchased by, 59t, 61–62, 61t
dominant industries in, 98–99, 98t
expected FGP impact on, 33, 102–103
OBM in, 38–39, 94–95
semiconductors in, sector, 96–99, 96t, 97t, 108n20–21
