Contents

Acknowledgments ix

1 Introduction 1
   Prior Research 4
   Research Questions 12
   Data and Methods 13
   Outline of the Remainder of the Volume 16
   Our Basic Findings 18

2 Outcomes for Young Adults in Two Cohorts 23
   Sample 23
   Outcome Measures 25
   Limitations 27
   Empirical Findings 28
   Regression Analysis of Employment and Education Outcomes 38
   Conclusion 45

3 Household Structure and Young Adult Outcomes 51
   Sample and Measures 52
   Estimated Equations 54
   Empirical Results 57
   Conclusion 82

4 Other Correlates of Household Structure and Their Effects on Outcomes 89
   Sample and Measures 90
   Estimated Equations 93
   Empirical Results 94
   Conclusion 114

5 Conclusion 119
   Summary of Empirical Findings 121
   Implications for Further Research 125
   Policy Implications 127

Appendix 139
Figures

3.1 Effects of Household Structure on Outcomes, without and with Controls for Parental Income  72

4.1 Effects of Household Structure on Outcomes, without and with Enrichment, Neighborhood, and Parenting Controls  108

Tables

2.1 Means on Employment Outcomes, by Gender and Race  29
2.2 Educational Attainment and Enrollment Status, by Gender and Race  31
2.3 Means on Education Outcomes, by Gender and Race  33
2.4 Risky Behaviors: Substance Use and Unmarried Childbearing, by Gender and Race  34
2.5 Means on Engagement in Risky Behaviors, by Gender and Race  36
2.6 Recursive Regressions Predicting Employment and Education Outcomes  40
2.7 Recursive Regressions Predicting Employment and Education Outcomes for Black Males and Females  46

3.1 Household Structure at Age 12, Total and by Race  58
3.2 Average Family Income for Various Household Structures, Total and by Race  59
3.3 Household Structure at Age 12, by Mother’s Educational Attainment  61
3.4 Effects of Household Structure on Outcomes, without and with Controls for Parental Income  62
3.5 Effects of Race on Outcomes, without and with Controls for Household Structure and Parental Income  76
3.6 Predicted Changes in Outcomes for Blacks over Time (1960–1996) Due to Changes in Family Structure  79
3.7 Fixed-Effect Regressions with Controls for Mother’s Background and Household Structure at Age 12  81

4.1 Means on Household and Parenting Characteristics by Household Structure at Age 12  96
4.2 Effects of Household Structure on Outcomes: without and with Neighborhood and Parenting Characteristics  98
4.3 Joint Significance of Human Capital Enrichment, Parenting, and Neighborhood Characteristics on Outcomes

A.1 Recursive Employment and Education Regressions for Black Males

A.2 Recursive Employment and Education Regressions for Black Females

A.3 Household Structure Stability of Respondents between Ages 2 and 12

A.4 Household Structure Stability of Respondents between Ages 12 and 16

A.5 Effects of Neighborhood and Parenting Characteristics on Outcomes, with Household Structure at Age 12
