Tables

1.1 Distributions of Immigrants to the United States and California, by Selected Countries and Regions of Birth, Fiscal Year 2002 9
1.2 Distribution of Legal Immigrants to California, by Top Five Receiving Counties, 2000 10

2.1 Total Enrollment in 2001 by Race or Ethnicity in the UC, CSU, and CCCS (%) 19

3.1 Gaps in Years of Education between Male Mexican and White Immigrants, by Generation of Immigrants, 1989 27
3.3 Selected Studies of the Effect of Community Colleges (CCs) on Educational Attainment Using National Data 32
3.4 Selected Studies of the Effect of Community Colleges (CCs) on Educational Attainment Using State Administrative Data 38

4.1 Overview of Alternative Approaches to Assessing the Impact of Community Colleges (CCs) on Labor Market Efficiency 48

5.1 Descriptive Statistics for One-Digit and Two-Digit Race or Ethnicity Variables, 1996 FTF Data, by Gender (%) 63
5.2 Descriptive Statistics for Community College Outcome Variables, by One-Digit Race or Ethnicity Categories and Gender 65
5.3 Descriptive Statistics for Student-Level Explanatory Variables, Males Only, by One-Digit Race/Ethnicity Categories 68
5.4 Descriptive Statistics for Student-Level Explanatory Variables, Females Only, by One-Digit Race/Ethnicity Categories 71
5.5 Descriptive Statistics for College-Level Explanatory Variables, Males Only, by One-Digit Race/Ethnicity Categories 76
5.6 OLS Estimates of the Determinants of Transfer to a Four-Year College, Receipt of AA Degree, and Total Credits Earned, Male Students 79
5.7 OLS Estimates of the Determinants of Transfer to a Four-Year College, Receipt of AA Degree, and Total Credits Earned, Female Students 82
7.4 Variation in the Supply of Occupational Training Provided by Community Colleges in the Los Angeles CC District, Los Angeles County, and Orange County (%)

7.6 Descriptive Statistics for Projected New Jobs by Occupation, Calculated over Counties and Labor Market Consortia (%)

7.7 Illustration Contrasting Two Hypothetical Colleges that Differ in their Labor Market Responsiveness (%)

7.8 Estimates of Responsiveness for Community Colleges at the Levels of the Individual College and CC District (%)

7.9 Detailed Comparison by Occupation of Labor Demand and Supply for Mission College and East Los Angeles College (%)

7.10 Characteristics of Colleges with High R Scores and Colleges with Low R Scores

7.11 Characteristics of Districts with High R Scores and Districts with Low R Scores

7.12 Regression Estimates of Relationships Determining R Scores for Colleges and Districts

A.1 Outcome and Performance Variable Definitions and Descriptive Statistics for the 1996 CCCS Student Cohort

A.2 Demographic Characteristics, Educational Goals, and Educational Background Variable Definitions and Descriptive Statistics for the 1996 CCCS Student Cohort

A.3 College-Level Variable Definitions and Descriptive Statistics for the 1996 CCCS Student Cohort
