Acknowledgments

I am indebted to many writers and sources, as acknowledged in the notes and works cited. I would like to thank, in particular, the late John Reilly, the late Philip Gerber, Robert Tener, Wilfred Samuels, Heather Lee Miller, and the anonymous readers for The Ohio State University Press, who have read part or whole of the manuscript and offered useful, constructive suggestions.

Over the years the Kent State University Research Council has provided several research leaves and travel grants, and I am grateful for their support.
