# Table of Contents

1. **What is reality?** 7
   - What is our current understanding of reality? 8
   - What has been the approach? 10

2. **Why do we need to expand our understanding of reality?** 15
   - Consciousness 15
   - Modern-day physics: where ‘in with the new’ does not mean ‘out with the old’ 24
   - We are part of life on our planet 35

3. **The paradox of language** 41
   - Language may move away from meaning... 43
   - ... but that does not make facts fictional 44

4. **Is reality what we make it?** 49
   - Reality: just probabilities taking shape? 49
   - The observer in the system 54
   - Reality as a process 57

5. **When efficient causation breaks down...** 61
   - Synchronicity and meaning 61
   - Synchronicity in our daily lives 62
   - Synchronicity in quantum mechanics 64
   - Are our synchronous experiences quantum? 67
   - Meaning and synchronicity in life 68

6. **The direction of change** 73
   - Reality as a stable process 73
   - Directionality in reality 74
   - Awareness as an inherent feature of reality 84
   - The nature of individual consciousness 86
   - Integrating old wisdom into new thinking: the nature of greater consciousness 89
7 Conclusions and possible implications 93
