“The local mechanisms of mind . . . are not all in the head.
Cognition leaks out into body and world.”

— Andy Clark, *Supersizing the Mind*
Current developments in psychoanalysis, psychology, philosophy, and cognitive and neuroscience confirm the profound importance of expression and interpretation in forming the mind’s re-workings of its intersubjective, historical and planetary environments. Brainstorm Books seeks to publish cross-disciplinary work on the becomings of the extended and enactivist mind, especially as afforded by semiotic experience. Attending to the centrality of expression and impression to living process and to the ecologically-embedded situatedness of mind is at the heart of our enterprise. We seek to cultivate and curate writing that attends to the ways in which art and aesthetics are bound to, and enhance, our bodily, affective, cognitive, developmental, intersubjective, and transpersonal practices.

Brainstorm Books is an imprint of the “Literature and the Mind” group at the University of California, Santa Barbara, a research and teaching concentration hosted within the Department of English and supported by affiliated faculty in Comparative Literature, Religious Studies, History, the Life Sciences, Psychology, Cognitive Science, and the Arts.
