Excerpted sections of this text have appeared previously in the pages of *Berfrois*, *HTMLGIANT*, *Queen Mob’s Tea House*, and the BABEL Working Group’s program for its 2014 biennial conference, *On the Beach: Precariousness, Risk, Forms of Life, Affinity, and Play at the Edge of the World* (punctum, 2014).

Thank you to Russell Bennetts, Katy Bohinc, Zahid Chaudhary, Rey Chow, Jodi Dean, Craig Dworkin, Shuwei Fang, Aranye Fradenburg, Daniel Heller-Roazen, Eileen Joy, Haun Saussy, and Josef Stern.

Special thanks to everyone at the King County and Sno-Isle Library Systems, and in particular to everyone there with any part in processing interlibrary loans.

Thanks too, with love, to my family and to s., comrade.
§ “The difficulty felt by those philosophers who have shown themselves to be puzzled by the subject of negation has not been that they failed to understand the use of negative signs,” A.J. Ayer has written. “They have been at a loss, not to understand what negative statements are, but only to account for their existence.”
