## List of figures

| Figure 3.1 | The Queen Elizabeth Olympic Park today (Stratford, East London). Photograph courtesy of the author. |
| Figure 3.2 | The author drawing an excavated rowing boat in December 2007. This site now lies beneath the main Olympic Stadium. Photograph © Maggie Cox/MOLA 2007. |
| Figure 3.3 | ‘Demolish, Dig. Design.’: a hoarding from the Olympic Park in 2007. Photograph by Gordon Joly (cropped). CC BY-SA 2.0 2007. Available from: [https://flic.kr/p/4aSaur](https://flic.kr/p/4aSaur). |
| Figure 3.4 | (above): Parkes Galvanizing Ltd. This 50-year-old enterprise had to leave the Park for the construction of the main Stadium. Photograph by Diamond Geezer (CC BY-NC-ND 2.0) Diamond Geezer 2006. Retrieved from: [https://flic.kr/p/23JXZd](https://flic.kr/p/23JXZd); (below): An operative working within Parkes prior to 2007, photographed as part of the *Dispersal* project. Photograph © Marion Davies 2019. |
| Figure 3.5 | The Manor Garden Allotments in early 2007. Photograph © 2007 Peter Marshall, mylondondiary.co.uk. |
| Figure 5.1 | Overview of Gezi Park, The Republic Monument and Taksim Square. © Google Earth, 2018 Digital Globe. |
| Figure 7.1 | Remains of *El Buen Suceso* in Sol train station. The outcome of the display is questionable, but the investment had no precedent in Madrid. Photograph © the authors. |
Figure 7.2 During a protest against the new law and for the protection of cultural heritage in front of the main building of the regional government (2012). Photograph © the authors. 115

Figure 7.3 Distribution of archaeological sites in the Plan de Yacimientos Visitables. Source: Comunidad de Madrid. 118

Figure 7.4 A view of Complutum. © Asociación de Vecinos Cervantes, Alcalá de Henares, 1998. 123

Figure 8.1 Basic sources of harm to heritage sites and values. Courtesy of the authors. 137

Figure 10.1 Dams and projected flooded areas along the Tapajós basin. Map by Maurício Torres. 170

Figure 10.2 The waters of the Upper Tapajós, Jamanxim, Juruena and Teles Pires rivers are characterised by a large number of rapids, making navigation hazardous. Photograph by Bruna da Rocha. 172

Figure 10.3 The lower course of the Tapajós, in contrast, is wide and accessible to large watercraft, including industrial barges. Photograph by Bruna da Rocha. 172

Figure 10.4 Cargill’s terminal at the town of Santarém, on the lower Tapajós, from where soy is shipped off down the Amazon river and into the Atlantic Ocean. Photograph by Vinicius Honorato de Oliveira. 173

Figure 10.5 Munduruku General Assembly at Sai Cinza village in early 2013. The sign in the background reads ‘We want the Tapajós alive forever’. Photograph by Vinicius Honorato de Oliveira. 175

Figure 10.6 At a protest against logging concessions, Beiradeiros make reference to the fact that they have ancient cemeteries on the eastern bank of the river. Photograph by Barbara Dias. 176

Figure 10.7 Munduruku visit the São Manoel dam on the Lower Teles Pires river. Photograph by Fernanda Moreira. 184

Figure 11.1 Map of Wunubarryi, in the Gulf of Carpentaria, Northern Territory, Australia. Details are provided of the dugong herd and lone dolphin at Wunubarryi. Map design by Fiona Brady. 196
Figure 11.2 Tommy Reilly Nawurrunu striking one of the dugong at Wunubarryi with a hammerstone (from Bradley 1997, 450).

Figure 16.1 Protest during the investiture ceremony of President Tsai. Photograph by Nicolas Zorzin, 20 May 2016.

Figure 16.2 The recreation of a fake ‘Han Street’, dedicated only to tourist shopping. National Centre for Traditional Arts, Yilan County. Photograph by Nicolas Zorzin, 18 May 2016.

Figure 16.3 Traditional Japanese housing in Da’an district, around Jinhua Street, in different stages of rehabilitation. Photograph by Nicolas Zorzin, March–April 2016.

Figure 16.4 Old Street with ‘Yubaaba’s House’, Jiufen (湯婆婆). Photograph by Nicolas Zorzin, 3 April 2016.
