PIONEER SCIENCE
AND THE GREAT PLAGUES
NEW DIRECTIONS IN THE HUMAN-ANIMAL BOND

Series editors: Alan M. Beck and Marguerite E. O’Haire, Purdue University

A dynamic relationship has always existed between people and animals. Each influences the psychological and physiological state of the other. This series of scholarly publications, in collaboration with Purdue University’s College of Veterinary Medicine, expands our knowledge of the interrelationships between people, animals, and their environment. Manuscripts are welcomed on all aspects of human-animal interaction and welfare, including therapy applications, public policy, and the application of humane ethics in managing our living resources.

Other titles in this series:

*The Canine-Campus Connection: Roles for Dogs in the Lives of College Students*  
Mary Renck Jalongo (Ed.)
