Abbott, A., 132
Adams, C. J., 131
AHPA (American Horse Protection Association), 97
American Association of Equine Practitioners, 97
American Horse Protection Association (AHPA), 97
American Veterinary Medical Association (AVMA), 97
American Veterinary Review, 103–104
Anderson, Leon, 62
animal doctors: in ancient Greece and Rome, 85; 19th century, 28–29
animal health, gendered experiences in, 22–23
animal producers and animal production industry, 30; large animal practitioners and, 44–46, 80–81
animal production: as “good ol’boys club,” 121–123, 138; mass herd versus individual animals in, 130–131; reproduction in, 117. See also production animals
animal rights, 38, 61–62, 65–66
animals: advocacy for, 64–69, 72–73, 75–80; antibiotics for, 71–72; with cancer, 31–32; in captivity, 11–12; as commodities, 8; compassion for, 64; diversity of, ethic of care and, 62; empathy with, men and women on, 115–117; ethics and, 21; euthanasia and, 9, 15–16, 64, 74, 76–77, 94–96; exotic, 65, 78; farm, 54, 86, 103–104; gender differences in views of, 115–116; humans and, 7–8, 71, 145n1; knowledge of, treatment and, 27–28; lab animals, 62, 72–73, 130; language and, 8; livestock, 29, 31, 44, 122; as products, 30; purpose of, care and, 71–77; in sociozoologic scale, 7–9, 71, 90–91; as tools, 7–10; treatment discourses, in veterinary medicine, 28–35; wildlife, 11–12, 82. See also companion animals and pets; food animals; horses; large animals; production animals; small animals; specific topics
Animals and Society Institute, 15
animal species: boundaries between, tracking system and, 11; boundaries of, 3, 99, 128, 137; categorization of, 85, 92, 99–100; distinctions between, in history of veterinary medicine, 28–29; medicine behind treating different, 58–59; species concepts of scientists, 7; tracks, care and, 61; types of knowledge, in learning about, 29
animal species, social construction of, 3–4, 12; boundary work and, 7–11; large and small animal categories, 84
animal welfare, 38, 65–66, 96
antibiotics, 71–72
Archives of Sexual Behavior, 17
Arluke, Arnold, 7
AVMA (American Veterinary Medical Association), 97

B
BAI (Bureau of Animal Industry), 104
barnyard culture, 103–104
Barth, Fredrick, 5
Black women, in academia, 21
borderlands, 4, 100
borders: boundaries and, 3–6, 136; defining, 4; in equine medical concentration, within veterinary medicine, 98–101; gender and, 5; in human-animal studies, 6; as spaces for confusion and connection, 98–101
border spaces, blurred categories and, 136–137
border species, horses as, 87–101, 136–137
border tracks, emerging, 84
border zones, 5–6
boundaries: animal species and, 3, 128, 137; around animal species categories, 99; animals species, tracking system and, 11; borders and, 3–6, 136; border species, 99–100; class, privilege and, 5; defining, 4; around different areas of animal medicine, 57–58; around different bodies of knowledge, 28, 132; gender and, 3, 5, 12; gendered, in veterinary medicine, 127–128; group membership and, 4–5; in organization of bodies of knowledge, 6; segregated feminization, 127–128; sociology on, 130; in sociozoo logic scale, crossing, 8; around specialty knowledge and treatment discourse, 115; symbolic interactionist-informed study of, 28; in veterinary medical education, 3–5, 28, 57–58, 129–130; in veterinary medicine specialties, 5, 28, 134; veterinary students on, 48–50, 57–58
boundary objects, 6, 98–99, 126–127, 137
boundary work: feminization and, 103, 128; gendered analysis and, 3; social construction of species, in tracking system, 9–11; social construction of species and, 7–9; veterinary medical education and, 12, 140; in veterinary medicine, knowledge in, 27
Bourdieu, Pierre, 5
Bureau of Animal Industry (BAI), 104

C
Canadian Veterinary Medical Association, 145n3
cancer, animals with, 31–32
caregivers, veterinarians as, 63–69, 71, 74–75, 135–136
caregiving identities, in gendered ideology, 111–115, 117–119
caring-killing paradox, in veterinary medicine, 62, 82–83
